Report on Library and Student Clubs Orientation Programme

The Library Orientation Programme for the first-year MBA students was conducted on 27th October 2025, marking an important step in welcoming new students into the academic environment of the institution. The programme was organized by the Library and Information Center with the key objective of introducing students to a wide range of academic resources, services, and facilities available through the college library. It also aimed to emphasize the pivotal role the library plays in supporting student learning, research, and personal development.

The session was led by Dr. Anitha S. Rai, Director - Library and Alumni Relations, who effectively engaged the students and provided valuable insights into maximizing the use of library resources and services.

Objectives of the Programme

- To familiarize students with the services and facilities offered by the college library.
- To explain the rules, policies, and procedures governing the use of library resources.
- To demonstrate how to access and navigate both physical and digital collections.
- To instill a sense of responsibility and academic integrity in the use of library materials.

The programme laid a strong foundation for fostering academic excellence and research literacy among students. The Library and Information Center remains committed to supporting students throughout their academic journey and looks forward to conducting more interactive and informative sessions in the future.
